MOTORIZED ELECTRONIC LOCK

* Includes only codes that can be used to open the lock, but does not include special-purpose time delay override code(s) that may be available. Codes used only for programming and/or audit trail management are not included in this number.

** If time delay override is not enabled, an additional user code is available, bringing the maximum number of user codes to 9, with 3 of these available when the duress function is enabled.

¹ Pending. Expected January 2008
